

StarChase Covert Tracking System

Compact and Powerful GPS Locator

This compact tracking system discreetly monitors vehicles, packages or other assets. It relays GPS information via cellular data networks and plots the device's real-time location on a secure web-based mapping interface. Measuring only 2.5" x 1.4" x .75", its compact size and long battery life allow it to remain concealed safely for days or even weeks depending on its update configuration. It can also be used as an AVL device on police and other public safety vehicles.

Dimension:	66mm* 36mm * 20mm
Weight	60 g
Backup Batteries	Li-Polymer 1300 mAh , 3.7 V
Standby Time	Without report : 180 to 220 Hours 5 minutes' report : 70 to 90 Hours 10 minutes' report : 100 to 120 Hours
Charge Voltage	5 V DC
Water Resistance	Follow IPX6 Standard
Certification	PTCRB and FCC

-  Water Resistance
-  Super sensitivity and high accuracy
-  Quad Band GSM/GPRS
-  Low Power Consumption
-  RoHS Compliant
-  Embedded Functional @Track protocol
-  AGPS ready solution

Light	Color	Event	State
LED 1	Red	Power key has been pressed	Light
		Device receives a valid command	Light
		Network Searching	Fast flash
	Green	Network has been registered	Slow flash
		SIM pin locked	Ever-light
		GPS is in fixing	Fast flash
LED 2	Red	GPS is fixed	Ever light for 2 sec
		Power is low	Ever-light
		The device is in charging	Slow flash
	Green	Charging is complete	Ever-light
		After inserting the charger	Light for 8 sec to indicate battery status is checked
		Blue	Geo Fence Function Key
Geo Fence SOS mode	Extra setting
